AFTER VACATION.
(By CHARLES B. DRISCOLL.)
Within his cell I heard him yell,
"Look out for poison ivy!"
Boy, here's your tip! I'll take a dip;
I'm feelin' kinda divedy!"

"Well, anyway, I'm here to say
Vacation wasn't rotten!
Why, looksee man, at all the tan
And freckles I have gotten!"

"Yes, I suppose my sunburned nose
Will make folks think I'm tipsy;
The boss will roar, 'In this here store
We cannot keep a gipsy!"

"If I get fired—well, I'm so tired
I'll welcome relaxation;
My poor old head feels just like lead;
I crave some dissipation!"

My next pay check is now a wreck;
It went for salves and lotions,
A dinner bell, a padded cell,
And sundry other notions.

"They say I'm broke. I hope I choke
Before another summer!
I've had enough vacation stuff;
It's put me on the hummer!"

HADN'T HARMED THEM.
Visitor—"My good man, you keep
your pigs much too near the house."
Cottager—"That's just what the doctor
said, mum. But I don't see how
it's agoin' to hurt 'em."

"Johnson needn't be so mad because
the teacher criticized his boy's
composition. The boy will improve."
"You don't appear to understand,
Johnson wrote the composition himself!"

Gifted.
Miss Lawrence possesses a rare soprano of wondrous sweetness and power. Her selections were all beautifully and artistically rendered. She fully sustained her reputation as a coloratura soprano, when she sang in Italian the lovely aria by Mozart. We predict for her a successful operatic career. The Martinsville (W. Va.) Bulletin.

What Did She Mean?

Student (truthfully reflective)—
"Yes, a great part of the time."

Washing and Automobileing.
A speaker before the convention of the National Educational Association in New York asserted that if the men had to do the washing for a week there would be more washing machines than automobiles bought. This would also be quite as true if the women who do the washing had anything to say on the subject.—Washington Herald.

Rich Languages.

In extent, the Spanish vocabulary is far inferior to the English, though in richness of tone or expression the Spanish is ahead of the English language. It is claimed that the pure Castilian is the most musical of languages, the Italian not excepted.

DEFENSE CHIEF CARE OF CONGRESS ADJOURNED TODAY

Both Army and Navy Were Practically Re-Organized

COST OF \$650,000,000

Summary of Other Activities of the Body During Session

(By Associated Press)
WASHINGTON, Sept. 8.—The first session of the Sixty Fourth Congress which adjourned today was concerned chiefly with national defenses.

When the gavel fell Congress had directed reorganization and reequipping of the Army and Navy for defense of the country at the unprecedented cost of \$655,000,000 with authorizations that will increase the total in three years to nearly \$800,000,000. With all other expenditures, appropriations were brought to the grand total of \$1,637,583,682, the greatest aggregate in the country's history and exceeding that for the last fiscal year by more than half a billion dollars.

Expenditures necessitated by preparedness and the calling into action of military forces to meet the Mexican emergency demanded revenue legislation in the closing days of the session. Congress responded by doubling the normal tax on incomes, creating an inheritance tax, munitions tax and miscellaneous excise taxes to raise \$205,000,000 and by directing sale of \$130,000,000 Panama Canal bonds.

Congress established a tariff commission; a government shipping board to rehabilitate the American merchant marine; a workman's Compensation Commission to administer a new uniform compensation law; a Farm Loan Banking system; a child labor law; enlarged the system of self-government in the Philippines and enacted many other important laws which had been contemplated by the administration.

The session was distributed through out by frequently recurring threats of foreign complications from the European war and imminence at one time of a diplomatic break with Germany; interference with American mails and commerce, invasion of American soil and killing of Americans by Mexican bandits, and danger of actual war with Mexico.

Later in the session trouble arose in the senate over the nomination of Louis D. Brandeis of Boston to succeed the late Justice Lamar as a member of the Supreme Court. Weeks of investigation and deliberation by the Judiciary committee ended in confirmation of Mr. Brandeis by a large majority.

In the week before adjournment congress was occupied in legislation which prevented a threatened nationwide railroad strike. President Wilson, after futile negotiations with officials of the railroads and railroad brotherhoods, submitted this controversy to congress, recommending legislation to avert the strike and to prevent such emergency from arising in the future.

After a week of consideration, during which the president visited the capital daily, conferring with administration leaders a bill was passed to establish an eight hour day as a basis for pay of railroad workers, the present rate of pay for ten hours work not to be reduced, and the men to receive pro rata pay for work in excess of eight hours, pending an investigation by a special commission into the effects of the eight hour day on railroad revenues.

Most important legislative enactments of the session, exclusive of laws for national defense include the following:

Government Ship Law.—Appropriating \$50,000,000 to operate ships in foreign and coastwise trade when unable to lease them to individuals or private corporations.

Child Labor Law.—Denying interstate commerce to products of mines and quarries employing children under 16 years of age and factories, mills, canneries and other establishments employing children under 14 years of age.

Rural Credit Law.—Establishing a Farm Loan Board in control of a system of Farm Loan Mortgage Banks.

Workman's Compensation Law.—Providing uniform sick and accident benefits for employees of the Federal government, and benefits to dependents in case of death.

Emergency Revenue Law.—Providing for doubling the normal income tax on the lowest class; making an additional surtax range from one per cent on that portion of incomes ex-

ceeding \$20,000 to 13 per cent on the amount of incomes in excess of \$2,000,000; levying a graduated tax of one to ten per cent on inheritances ranging from \$50,000 to \$5,000,000; a ten per cent net profit tax on manufacturers of munitions, five per cent net profit tax on manufacturers of materials entering into munitions; a license tax on actually invested capital stock of corporations capitalized at more than \$99,000; wine, beer and liquor excise taxes and miscellaneous stamp taxes.

Good Roads Law.—Providing for cooperative Federal aid to the States for construction of highways, and appropriating \$75,000,000 to be spent in five years.

Postal Savings Law.—Amendment increasing the amount which individuals may deposit from \$500 to \$1,000 with interest and an additional \$1,000 without interest.

Federal Reserve.—Amendments, including amendment to the Clayton anti trust law permitting officers and directors of member banks to become officers and directors of not more than two other non competing banks; amendments permitting national banks to establish foreign branches, liberalizing regulations for discounting commercial paper and permitting member banks in towns of 5,000 or less population to act as agents for insurance companies.

Railroad Legislation.—Creating a joint sub-committee of Senate and House Interstate Commerce committees to investigate necessity for further legislation for railroads and the Interstate Commerce Commission question of government ownership of public utilities and comparative worth of government ownership against government regulation.

Tariff.—Creation of a non-partisan Tariff Commission of five members to investigate and advise Congress on tariff revision; repeal of the free sugar provision of existing tariff law; amendments increasing duties on dyestuffs to encourage manufacturing dyestuffs in the United States; enactment of an anti-dumping provision to prevent dumping of foreign made goods at less than foreign market prices; authorization for the President to retaliate against foreign nations prohibiting importation of goods from the United States by laying an embargo against imports from offending nations.

Railroad Eight Hour Day.—Establishing eight hours as the standard for reckoning the compensation of railroad employees operating trains in interstate commerce after January 1, 1917, and providing for a commission of three to investigate the effect of the eight hour standard, present wages not to be reduced during the investigation, nor for thirty days thereafter and work in excess of eight hours to be paid for at a pro rata rate.
